

Comité International Radio-Maritime

The international association for marine electronics

CIRM is the international association for marine electronics companies

Members include manufacturing and servicing companies, equipment suppliers, system integrators, application providers and other related businesses

Gathering individual companies together into a powerful and trusted industry body, CIRM promotes the application of electronic technology to enhance the safety and efficiency of ship navigation

Scope of technical interest

- Ship navigational equipment & systems
- Maritime radiocommunications & GMDSS
- Digitalisation of the marine industry
- Integration & automation of bridge systems
- Autonomous shipping
- Maritime cyber security

Membership benefits

- Representation through our respected industry body
- Exclusive access to CIRM conferences, workshops, webinars & publications
- Excellent opportunity to network with industry decision-makers
- Technical engagement through our dynamic & responsive Working Groups
- Participation at international standards meetings

Gain an edge with CIRM membership

In a market where innovation, accessibility, reliability and value are key factors for enhancing the safety of life at sea, CIRM provides member companies with a competitive advantage

CIRM supports the dynamic and changing needs of our maritime world through the application of industry intelligence and sound knowledge of the technical/regulatory environment

CIRM's direction and approach to work is dictated by real-time developments in maritime technology. We ensure our responses are well considered by our members

Digitalisation and interconnectivity are vital concepts for modern bridge radio and navigation equipment. As new regulations emerge, considerations around communications, privacy and cyber security dominate. Addressing these, CIRM supports industry at the IMO, IEC, ITU and ISO and other international organisations

Functions

CIRM represents the interests of the marine electronics industry on a global basis

We have well over 100 member companies located across 6 continents

We provide a specialist information service for our members

Our well-resourced Technical Office is committed to providing members with the latest industry information, including meeting and event reports and a monthly Technical Bulletin

We co-ordinate members' views when resolving regulatory issues

CIRM stays in touch with our members' opinions and ensures their views are fed into industry discussions

We provide a forum for members to exchange information and business opportunities

Our Annual Conference provides cutting edge technical and business-oriented content

We provide technical and industrial advice to the international regulatory organisations

CIRM holds observer, liaison, or consultative status with all key bodies

We enable our members to participate in the development of international regulations and standards affecting their products and services

CIRM is highly active at international standards organizations, including IMO, ITU, IEC, IHO, etc.

Membership fees (2022)

Full-time employees	FULL	ASSOCIATE **
Fewer than 10	£1,750.00 2 units*	-
10 - 50	£3,500.00 4 units*	£2,625.00 3 units*
More than 50	£5,250.00 6 units*	£4,375.00 5 units*

* 1 unit = £875.00

** Please refer to the CIRM Articles of Association approved 29 April 2021
